<b>10.2.1 – Replacement CAT 910 K loader Town Loader</b>	
Location / Address	Town Crew/Depot
File Reference	DS.3301
Author	Manager of Works & Services – Joe Hodges
Date of Report	13/09/2021
Disclosure of Interest	NIL

**Summary**

Cat 910 K loader not suited for works conducted and continual machinery faults occurring after damage fighting fires. Machine supplier unable to completely rectify issues in machine.

**Background**

Operator method and machine size inappropriate for works carried out at the Shire landfill and also filling in for Road Crew loader on occasions loading trucks.

**Statutory Environment**

NIL

**Policy Implications**

Purchase of new Town Loader

**Financial Implications**

Additional \$40,000 in costs due to a slightly larger machine and the purchase of a “Crab Bucket” for easier pick up of materials.

**Strategic Implications**

With the addition of a grab bucket the bulk waste collections will be completed with less issue to the staff and public as waste picked up and loader onto the truck easier. Ability to cover the road crew loader when required with ease.

**Consultation**

MWS  
CEO  
Leading hand Town Crew

**Comment**

The MWS inspected several of the loaders submitted to the Shire. Of all that were inspected the John Deere 444P has the better operator seating and work environment. Less complicated controls in a safer looking cab set out.

**Voting Requirements**

**Officer Recommendation**

It is recommended that the Shire award the loader replacement to AFGRI for a new 2021 John Deere 444 P wheel loader with a changeover of \$219,070 as this machine though not the cheapest is by far the best-appointed loader for operation and design.

Moved: Cr. Wyatt
