Dear Peter,

Thank you for your time today on the phone.

As discussed Tiger Tasman is planning to conduct initially over the first years non intrusive activities over the tenure, most likely mapping, as well as soil and rock chip sampling. The activities would be conducted involving minimal interaction or interference with other stakeholder including tourists by:

- a) potentially agreeing on suitable access tracks and lay down areas away from the highway and advertised parking areas
- b) signing appropriate access agreements with the shire for our general exploration activities (for later years)
- c) committing to advise the Shire prior to any planned activities

I would be happy to discuss a potential agreement further and look forward to hear back from you.

Kind regards

Ralf
