Summary

For the Council to consider a development application by Bryce Bonza to construct an oversize shed at 26 John Street Norseman

Background

The Shire has received a development application from Bryce Bonza to construct a 78m² shed with a 4.5m wall height at lot 1709 (26) John Street Norseman

The subject lot is 647m² in area and zoned residential R10 pursuant to the Shire of Dundas Local Planning Scheme No 2

The Residential Design Codes allow a size for outbuildings of 10% of lot area and a maximum wall height of 2.4m and 4.2m ridge height

Statutory Environment

Shire of Dundas Local Planning Scheme No 2
Residential Design Codes (R Codes)

Policy Implications

There are no Council policies that apply in relation to the proposed development

Financial Implications

There are no financial implications for the Shire in relation to the proposed development

Strategic Implications

There are no related strategies in the Community Strategic Plan

Consultation

Proponent - Bryce Bonza

Where an application is made for development approval which presents:

(a) a proposal against one or more design principles of the R-Codes; and

(b) a possible impact on the amenity of adjoining owners and occupiers;

then there may be grounds for the decision-maker to advertise the proposal to these owners and occupiers.

Comment

In this case the requested shed is about 13m² larger than the R Codes stipulate.

The Shire have in the past approved some larger sheds in the residential area however those variations in size have been advertised for comment.

The maximum shed height generally approved by the Council in the past is a 3m wall height, however the Council has approved greater heights in the past. The most recent was in 2017 where a shed with a 3.9m wall height was approved subject to no comments after advertising.

The proposed shed wall height is 4.5m which is significantly higher than the 3m generally approved by the Council and the 2.4m wall height stipulated in the R Codes.

In considering the application the Council may refuse the application to issue a building permit if it considers that such a building by its design, construction or materials detract from the streetscape or the visual amenity of residents or neighbouring properties.

The applicant has submitted that the height of the shed is required for the following:

- *The proposed shed is over height to allow for the servicing of the trucks inside the shed out of the weather and on a concrete floor, (rather than the dirt), when required. Also, similarly for servicing and to allow for the height of service utilities without knocking off aerials.*
- *The proposed shed is over size to allow room for the tools etc. required for servicing the vehicles (as well as the vehicles themselves, while being serviced) and for storage of materials and tools for other hobbies such as woodwork and antique restoration.*
- *The location of the proposed shed is at the rear of the property, backing onto the rear laneway. There is no development to the South beyond the laneway, ie: no neighbours to the rear of the shed.*
- *The position of the shed should not impede the view or cause any detriment to any neighbours.*
- *There are no commercial/industrial blocks available in town at this time.*

Due to the proposed height of the shed, it is suggested that the application be advertised for comment and referred to next month's Council meeting for further consideration.

Details of application are included in Papers Relating.

Summary

Proposed the upgrade from a Rigid type truck carrying 12,000-litre water, to a Sem-Trailer Watercart carrying 26,000 Litres.

Background

The Shire Road Crew has a rigid water cart with a capacity of 12,000 litres which while working on the Hyden Norseman Road does not carry enough water to viable operate in road construction

Statutory Environment

Nil

Policy Implications

Alteration to Plant Replacement Policy.

Financial Implications

Initial additional cost of approximately \$45,000-\$50,000, but generating operating savings for entire life of vehicle. This amount has been included in the 2020/21 draft budget.

Strategic Implications

Ability to deliver required amount of water to the job site, creating better productivity and saving budgeted funds.

Consultation

 Councillors

Comment

By upgrading the water cart from a Rigid body Watercart of 12,000 litre capacity to a semi-trailer type the amount of water that can be delivered to the work site quicker and more efficiently, saving time and allocated funds.

Savings include, less travel distances for vehicle, main tank to be Stainless Steel, no rusting, less km driven means reduced servicing, saving in fuel used, greater amount of water applied to the road at any one-time, higher quality of road surface.

Summary

For the Council to appoint an Elected Member/s to the Local Emergency Management Committee.

Background

The Shire of Dundas currently have a Local Emergency Management Committee (LEMC) which meets throughout the year to assist with the planning, development and review of the Shire's Emergency Management Arrangements. Currently Chaired by the CEO with Manager of Community Development providing secretariat support, Council may wish to appoint a representative/s to attend meetings and to report back to Council.

The functions of the Shire of Dundas LEMC are:

- to advise and assist the local government in ensuring that Local Emergency Management Arrangements (LEMAs) are established for its district;
- to liaise with public authorities and other persons in the development, review and testing of the LEMA and;
- to carry out other emergency management activities as directed by the State Emergency Management Committee (SEMC) or prescribed by the regulations.

Statutory Environment

Under section 38 of the Emergency Management Act 2005, a local government is required to establish one or more Local Emergency Management Committees (LEMCS) for the local government's district.

Policy Implications

Nil

Financial Implications

Consultation

District EM Advisor

Comment

Local governments are the closest level of government to their communities and have access to specialised knowledge about the local environment and demographic features of their communities.

Local governments also have specific responsibilities for pursuing emergency risk management as a corporate objective and as good business practice.

The committee does not have executive powers or authority to implement actions in areas over which the CEO has legislative responsibility and does not have any delegated financial responsibility. The committee does not have any management functions and cannot involve itself in management processes or procedures.

Cr V Wyatt is a member of the Shire of Dundas LEMC in her role as Captain of the Norseman Volunteer Fire and Rescue Service.

Summary

For Council to review and adopt the draft Shire of Dundas Policy- EM.4 Surface Pro Tablet/Laptop and Email Use - Elected Members

Background

Currently there is no policy for Elected Members use of Shire provided technology and emails. Elected Members have now moved to conducting Council business via their cr@dundas.wa.gov.au email address, providing a more suitable communication platform than personal or private business/work email. Technology access is provided to Elected Members as a Council business tool. Its purpose is to assist in research, training, communication and to provide better access to information.

Statutory Environment

Nil

Policy Implications

The new policy will complement the existing policy for Shire employees - HR.3 Internet, Email Usage and Access to IT System

Financial Implications

There are no financial implications of adopting the Policy. Not having a policy in place, may present a financial risk to the Shire of Dundas.

Comment

Councillors are elected to represent the views of the Community; it is therefore vital that Councillors are equipped with the resources required to engage. The COVID-19 pandemic has increased the requirement for Councillors to use technology to carry out the duties of their roles.

With the addition of new resources and the requirement to use the technology it is appropriate that Elected Members are provided with clear direction on the use of the technology via a Shire Policy.

Comment

Elected members and serving officers are permitted to be delegates with a formal Council resolution. As it is normal practice for the Shire President (although not compulsory) to be a voting delegate, the Council has the opportunity to nominate another voting delegate.

The following duties and responsibilities have been delegated to the Audit Committee by the Council at the Ordinary Meeting of the Council held on the 15th October 2019.

Delegated Duties and Responsibilities of the Audit Committee: -

1. Provide guidance and assistance to the Council in carrying out the functions of the Shire in relation to audits which includes risk management, internal controls and legislative compliance.
2. Develop and recommend to the Council an appropriate process for the selection and appointment of a person as the Shires auditor.
3. Liaise with the CEO to ensure that the Shire does everything in its power to:
 - assist the auditor to conduct the audit and carry out his or her other duties under the Local Government Act 1995; and
 - ensure that audits are conducted successfully and expeditiously.
4. Examine the reports of the auditor after receiving a report from the CEO on the matters and –
 - determine if any matters raised require action to be taken by the Shire; and
 - ensure that appropriate action is taken in respect of those matters.
5. Review the report prepared by the CEO on any actions taken in respect of any matters raised in the report of the auditor and present the report to the Council for adoption prior to the end of the next financial year or 6 months after the last report prepared by the auditor is received, whichever is the latest in time.
6. Review the relevant audit process annually to ensure that it is effective and meets the objectives of the Shires “Internal Audit and Risk Management Policy”.
7. Oversee the Shires Risk Management Plan and
 - support the implementation of the risk management and culture development program throughout the Shire;
 - make recommendation of the risk tolerance level for the Council to consider and adopt as appropriate;
 - bring to the attention of the Council the high to extreme identified risks and their recommended treatment;
 - establish the risk management plan which is aligned with the strategic planning process; and
 - actively promote risk management throughout the Shire.

Summary

For the Council to endorse the proposed changes and adopt the Schedule of Fees and Charges for 2020/2021.

Background

Each year the Shire of Dundas reviews the Schedule of Fees and Charges in preparation for the coming financial budget. The proposed 2020/2021 schedule is included in papers relating.

Statutory Environment

Local Government Act 1995
Local Government (Financial Management) Regulations 1996
Ministerial Order (COVID -19) 2020

Policy Implications

Fees and Charges are calculated in accordance with the policies of the Shire.

Financial Implications

Fees and Charges for the provision of services need to be adopted in the Schedule of Fees and Charges for the Shire to enforce a fee for that service under the regulations.

Strategic Implications

Services captured in the fees and charges schedule have an impact on the key themes, strategies and goals identified in the strategic community plan of the Shire.

Consultation

CEO and other senior staff

Comment

There are some new fees and charges added to the proposed schedule for 2020/21. In view of the Covid 19 – Pandemic, fees and charges will not be increased for 2020/21. The key changes are summarised below,

Hot Office:

A fee will be imposed for short-term hire of any spare office at a daily rate of \$ 110.00 (GST Inc.) for commercial organisations and, for Not-for profit organisations, a rate to be set in line with the Council Policy.

Hire of Gazebos:

Due to the local demand for use of the Shire's Gazebos, the following rates are proposed for Gazebos.

Commercial organisations

Daily rate for day 1 \$250.00 (GST inc)

Daily rate from day 2 \$200.00 (GST inc)

Not-for Profit organisations: As per Council Policy.

MWS

Comment

Over the last 5-6 years plant has not been purchased on a regular schedule with items purchased outside their scheduled year.

All plant needs to be changed over at the best possible time so the shire receives a good trade and repairs are at a minimum.

As there was an excess of plant purchased 12 items in 2016 of which 7 of these are due for replacement in 2020/2021. The annual plant replacement budget cannot accommodate the same scheduled replacement.

Some will need to be held over for 12 months.

These are vehicles allocated to;

- 2 Gardener vehicles
- MFA Subaru wagon
- Work Supervisor Nissan Navara
- Kubota lawn mower
- Hi-Ace Bus.

These would be scheduled to be replaced in 2021/2022 budget year.

Voting Requirements

10.4.8 – Differential Rate Model – 2020/2021 Budget	
Location / Address	Shire of Dundas
File Reference	RV.VA.5
Author	Aruna Rodrigo – Manager Finance & Administration
Date of Report	19 th June 2020
Disclosure of Interest	Nil

Summary

That the Council approve the differential rate model for advertising and subsequent inclusion in the 2020/21 budget.

Background

Part of determining annual budgets is the setting of rates in the dollar that are then applied to the property valuations as supplied by the Valuer General (Landgate). Rates in the dollar can be set in two ways.

Firstly, they can be standard, resulting in a rate levy (rate in the dollar) within the Gross Rental Valuation and the Unimproved Valuation categories.

Alternatively, they can be differential within each of the categories (UV & GRV), meaning different rate levies can be set for different types of property within one rate category.

The Local Government Act 1995 determines that differential rates can be set according to:-

- the purpose for which the land is zoned;
- the predominant purpose for which the land is held or used;
- whether or not the land is vacant; and
- any other characteristic or combination of characteristics prescribed.

The application of differential rating maintains the status quo in terms of equity in the rating of properties across the Shire, enabling the Council to provide facilities, infrastructure and services to the entire community and visitors.

Statutory Environment

Section 6.33 of the Local Government Act 1995 and associated regulations prevail in this matter. Prior to finally adopting differential rates, the proposed rates need to be advertised for three weeks seeking public comment. Following the advertised period, the Council is then to consider any responses received before adopting the final rates in the dollar along with the annual budget. The Council is not compelled to adopt the differential rates advertised or compelled to factor in any comments received; only to consider the comments prior to final adoption.

Section 6.33 of the Act requires that a differential rate of more than twice the lowest differential rate cannot be set without approval of the Minister (delegated to the Director General).

The Impact of COVID – 19 Pandemic:

The Minister for Local Government, Heritage, Culture and Arts has issued a ministerial order to exempt local government from requirement to comply with various statutory provisions and regulations in relation to differential rates. The Ministerial Order is binding on Local government organisations who have increased Rates in 2019/20 with Ministerial approval.

As this is not the case with the Shire, the Ministerial order does not apply, and the Shire has discretion to increase rates if required.

Nevertheless, the Shire adopts the following exceptions granted under the ministerial order in respect of rating for 2020/21.

1. Freezing of rate in the dollar (differential rate): The Shire has not changed the differential rate in the dollar from 2019;/20 nor the minimum charge for any categories of properties. Accordingly, the following differential rates and minimum charges that are equal to 2019/20 will be adopted for 2020/21.

	Gross Rental Value (GRV)		Unimproved Value (UV)	
	Differential Rate (cents per dollar)	Minimum Amount (\$)	Differential Rate (cents per dollar)	Minimum Amount (\$)
Townsites/Roadhouses/Service stations	15.7038	360.00		
Mining/Exploration/Prospecting	21.5000	360.00	15.7159	360.00
Pastoral			8.3200	360.00

General minimum payment of \$360 will apply for all properties. Minimum charge for prospecting leases of \$309 will not apply for 2020/21.

Due to increase in revaluation of UV Mining properties by around \$ 463k for 2020/21, Rates revenue from UV mining has increased by \$105k. This also includes interim rates.

2020/21 revaluation has increased UV Pastoral by \$38k, adding about \$3,150 rates income from this category. An adjustment will be done to Rates on UV Pastoral to equate their 2020/21 Rates to current year Rates in consideration of their financial hardships arising from the drought.

2020/21 property valuation details and proposed Rates revenue for 2020/21 by Rating code are given below.

	MINIMUM			NON - MINIMUM		
	Properties (#)	Valuation (\$)	Rates Levied (\$)	Properties (#)	Valuation (\$)	Rates Levied (\$)

Others				518		
TOTAL	354	292,873	123,972	3,308	16,372,846	2,520,624

Summary:

Total # of properties: 3,662
 Total Valuation (\$): 16,665,719
 Total Proposed Rates Revenue (\$): 2,644,596

- Freezing of minimum payment: This has already been complied with in the estimation of 2020/21 Rates revenue as in the above.
- Exemption from the requirement to advertise differential rates, giving 21 days' notice to the public for submissions: The Shire will publish its 2020/21 Rating information only on the Shire website as permitted by the Ministerial order.

Other exemptions granted by the Ministerial order and already adopted by the Council of Shire of Dundas on its Financial Hardship Policy includes:

- Interest on overdue Rates, fees and charges will not be charged for 2020/21. Any interest and penalties already charged and accrued up 30th June 2020 will remain.

In the case of severe financial hardship, the Shire of Dundas may consider writing off interest applicable to the Emergency Services Levy and / or interest previously accrued on rates and service charge debts.

The interest on debts owed by other rate payers will accrue at 8%.

- Rate payers who opt to pay their Rates by instalments will not be charged interest on their debts. Other persons will be charged interest at 5.5% p.a. on their debts.

The above concessions are available only for Rate payers who have successfully applied to the Council to be treated as "Excluded person".

Only those who have financially been affected by the Pandemic will be granted these concessions.

The Council will determine the suitability of a person to have access to these concessions through assessing their application.

Policy Implications

Financial Hardship Policy

Financial Implications

The setting of differential rates is an integral part of setting annual budgets. Rates income represents approximately 50% of overall operating revenue of the Shire. It is the only income stream over which Council has a direct control. It is imperative that for future financial sustainability, rate income has an inflationary offset together with a component for capital replacement and/or expansion.

However, due to ongoing Pandemic, the differential rates and minimum payments will not be increased for 2020/21.

Therefore, as recommended by the Ministerial order, Local Government Budget for 2020/21 must have focus on impact of the Pandemic rather than plan for the future.

The budget being presented to the Council today has been prepared on this basis and any major capital or operational commitments included in the budget are mainly to be funded with grants and subsidies.

Strategic Implications

The rating strategy determined by the Council has a direct impact on Shire's long-term financial sustainability and thus the ability to continue the delivery of services to meet the Strategic Community Plan and Corporate Business Plan requirements.

Consultation

Councillors, CEO and Senior Staff, Moore and Stephens

Long Term Financial Plan and Rating Strategy

As per the Long-Term Financial Plan (LTFP) 2018-2027 and the preliminary budget papers, the total rates yield required by the Shire to meet its budgetary obligations is in line with the proposed rates in the dollar for GRV and UV categories.

The Shire will be able to raise a total rates revenue of \$2,644,596 for the financial year 2020/21, reflecting a very marginal increase of 4.3% in rates revenue. This increase is solely due to increase in UV mining and UV pastoral properties valuations which make up 67% of total property valuations of the Shire.

Valuation Changes

The final amount raised from the rates may vary as a result of changes in valuations before rates notices are issued. However, the impact is expected to be minimal at this point of time.

Approval of the Minister

Ministerial approval is not required as the rates in the dollar proposed has not changed from 2019/20.

Voting Requirements

Absolute Majority

Officer Recommendation

That the Council:

1. Approve following proposed rate in the dollar and minimum rates to apply for the 2020/21 financial year;

Gross Rental Value (GRV)

- Townsites, Roadhouses and Service Stations - 15.7038 cents in the dollar of GRV
- Mining - 21.5000 cents in the dollar of GRV

Unimproved Value (UV)

- Pastoral - 8.3200 cents in the dollar of UV
- Mining - 15.7159 cents in the dollar of UV

Minimum payment GRV \$360.00 per assessment

Minimum payment UV \$360.00 per assessment

2. Adopt the 2020/21 Rates - Objectives and Reasons statements as set out in papers relating;
3. Resolve that, in accordance with the Ministerial Order 2020 – Local Government Covid – 19 Response, a notice will be placed on the Shire’s website within ten days of this resolution or of this notice coming into effect whichever is later, advising that Council will impose the above differential rates and minimums for 2020/21 financial year;
4. Approve a discount on Rates for Pastoral Leases to ensure Rate payers in this category pay the same amount of Rates as in the current year, total expense of the discount being \$ 3,150: and
5. Approve adjusting minimum for UV Prospecting leases from \$309 to \$360 for the reasons set out in the above.

Summary

Proposed Income and expenditure for 2020/2021 is presented in the papers relating for councillors to note. The draft budget for 2020/21 will be presented for approval at July 2020 Ordinary Council meeting.

Background

Proposed Income and expenditure for 2020/2021 reflect priorities identified in the Corporate Business Plan and its associated strategic plans. Council's resolutions and discussions over the past 11 months also have been considered in finalising the draft budget.

Proposed rate model for 2020/21 has been presented for Council approval and for publication and subsequent inclusion in the 2020/21 budget. In arriving at the proposed rates in the dollar the Shire has attempted to balance the need for revenue to fund essential services and facilities with the consideration of the rate payer's capacity to pay.

A review of fees and charges has also been conducted and presented for Council approval.

Statutory Environment

Section 6.2 of the Local Government Act 1995 requires that a local government is to adopt a budget by the 31st August unless extended by the Minister.

Policy Implications

Council policies have been considered in formulation of the 2020/2021 draft document.

Financial Implications

The proposed Income and Expenditure ensure a balanced budget with no borrowings and will form the basis of income and expenditure for the next twelve months.

Strategic Implications

The council's Strategic Community Plan, Corporate Business Plan, Capital Works Plan and Long-Term Financial Plan have provided strategic insights into the proposed Income and Expenditure for 2020/21.

Consultation

Councillors, CEO, Senior managers and other senior officers/supervisors.

Comment

Estimation of expenditure for 2020/21 is based on actuals (up to May 31st, 2020), proposed work plans, staffing requirements and unfinished works to be carried forward into the budget year 2020/21.

Revenue estimation has been based on actuals (up to May 31st, 2020), proposed rating model, statutory changes (planning fees), grant funding opportunities and new income sources.

Further, both revenue and expenditure estimation has taken in to account potential effect of the Pandemic, CPI movements and general economic environment.

Overarching objectives of 2020/21 budgeting process are;

- To stimulate growth in the local economy by launching Government – initiated, grant funded special capital projects
- Not to withdraw funds from reserve accounts during 2020/21 financial year despite the Pandemic
- No to increase differential Rates or minimums
- Maintain current service standards

- Very efficient, cost-conscious operation

OVERALL

Total Operating Revenue for 2020/21 amounts to \$5,257k, an increase of \$1,028k mainly due to recognition of full year FAG grant and increase in Rates from UV Mining resulting from increased property revaluations.

Operating expenditure for 2020/21 remains at \$7,138k mostly equal to current year revised budget.

Other increases include 2.2% CPI increase in staff salaries and wages (\$42k) and increase in insurance premiums by 8.63% (\$16k).

The table below shows overall income and expenditure in comparison with the current year original and revised budgets.

Some comments in relation to each schedule is set out below for Council information:

General Purpose Funding

The Shire will be able to raise a total rates revenue of \$2,644,595 for the financial year 2020/21, reflecting an overall increase of 4.3% over actual rates revenue for 2019/20.

Significant variation in UV mining properties has pushed up next year's Rates despite no change to differential rates and minimums.

All GRV valuations remain unchanged as no revaluations have been conducted in these categories for 2020/21.

The Shire has experienced a significant increase in outstanding rates due to dwindling population coupled with the economic downturn and the Pandemic. Many vacant lands and rundown properties can be seen throughout the Norseman townsite.

As confirmed by the department, total FAG will decrease by 4%. The increase in FAG for 2020/21 is due to recognition of the full amount of FAG that includes expected advance payment in 2021.

Governance

There is no significant change in overall results compared with 2019/20.

New items include Designated Area Migration Agreement (\$10k), Records Management Services (\$26k) including training, and Plant replacement (\$44k) net.

Law, Order and Public Safety

Major programs include DFES fully funded LG host (\$ 300k for 2 years) and IGO fully funded bush fire compliance works (\$30k).

IGO provides \$100k grant for the Shire to implement several programs on community development and education.

The Shire aims at achieving cost neutrality in managing bushfire events with funding from DEFES.

Health

No significant projects have been planned for 2020/21. The Shire intends to defer capital repayment of loan on Doctor's house (\$47k). The loan deferral is cashflow relief initiated by WA Treasury to assist local government in combatting economic downturn resulting from the pandemic.

Education and Welfare

A budget allocation has been made for major upgrades on Youth Centre Toilet of \$25k.

Housing

There are no significant projects planned for 2019/20.

Community Amenities

There is no increase in any fees and charges including domestic waste service charges and commercial waste service charges.

If construction of liquid waste drying beds was completed by the end of this financial year, the Shire would be able to save around \$60k in contractor fees on emptying those ponds to accommodate townsite residential liquid waste.

This saving has already been included in the next year's budget, assuming the construction of liquid waste drying beds will be completed in the current year.

Recreation and Culture

Proposed capital projects include Town Hall toilet upgrade (\$25k), Town Hall Tech upgrade (\$10k), Eucla Town Hall Safety hand rails (\$15k), Eucla Townhall toilet upgrade (\$10k), Men in sheds kitchen upgrade (\$5k), Dodd house upgrade (\$30k), Swimming pool repair (\$22k), disabled access to Welcome park toilet (\$20k), Rotunda upgrade (\$24k) and Sunset seating – Lake Cowan (\$15k). Total capital project cost amounts to \$176k.

The first two projects will be funded with IGO contribution up to \$30k. All other programs will be funded out of the Shire's general revenue.

In addition, there is a project to be carried over from current year of \$10k on soundproof fencing.

New Operational programs: the Shire also intends to take up a 5-year lease for the current CRC building at the annual rent of \$2,400 plus GST. The Shire is also planning to construct a disabled access to the building at the projected cost of \$25k. The building will be used for community hub.

Other major operational programs include Norseman community Christmas decoration (\$10k), IGO funded Dundas Educational scholarship (\$10k), and IGO contribution to various community events (\$10k).

Transport

All delayed road projects (due to the involvement of Shire's staff in Norseman airport upgrade project) funded by Regional Road Group (RRG) namely RRG 2 – Hyden Norseman Rd. (\$457k) and RRG 3 – Mort Harslett Rd. (\$48k) have now been completed.

There may be a small portion of works on RRG 4 – Norseman Hyden Rd. (\$389k) to be carried forward to 2020/21. This will be assessed as at June 30th, 2020 and adjusted in the final budget that will be presented to the Council in July 2020.

During 2020/21, the Shire is planning to spend \$880k on roads and footpath capital projects with roads funding amounting to \$675k, consisting of \$268k from R2R and \$407k from RRG.

The Shire will not undertake any Black Spot Funding works for 2020/21.

Other major capital items include Norseman Airport fuel pod (\$150k) funded with Federal Infrastructure grant and plant replacement with an estimated net cost of \$386k.

Total Federal Infrastructure grant to be claimed in 2020/21 amounts to \$287k which will be used for installation of the above Fuel Pod (\$150k) and Laundromat (\$140k).

Economic Services

Woodlands Centre Project is nearing completion. Any outstanding works as at the year-end will be carried forward to the next financial year.

Woodlands Centre operating expenditure (utilities, insurance and other office costs) will be re-allocated to the two occupants, namely CRC and Visitor Centre.

An annual rent of \$18k will be charged to CRC to partially cover other maintenance costs of the Woodlands Centre including depreciation. A further annual admin fee of \$10k will be billed to CRC to cover cost of staff-time spent on providing organisational and accounting support.

Visitor Centre has now been taken over by the Shire. There are budget allocations for both operating expenditure and revenue for 2020/21. Tourist subsidy (\$60k) is therefore no longer payable and used to partially offset operating cost of the Visitor Centre.

Other new programs include IGO funded local and industry development (\$10k),

Other Property Services:

New items include proposed sale of 8 land lots and expected income from sale of gravel (\$60k).

Other Matters:

In accordance with the Shire's Financial Hardship Policy and Ministerial Order 2020 – Local Government Covid – 19 Response, Interest on outstanding Rates and, Charges could be applied at concessionary rate as follows

(1) Interest on overdue Rates, Fees and Charges

For Excluded Persons: 0%

Summary

The Rating calendar is to be set by the local government for the new financial year 2020/21.

Background

In the process of setting of rates in the dollar, the Council each year determines dates for payment of rates in full and by instalments.

Statutory Environment

Section 6.45 of the Local Government Act 1995 and Regulation 64(2) of the Local Government (Financial Management) Regulations 1996, provides the process the Local Government should adopt in determination of payment dates for Rates.

A period of thirty-five days (35) from date of issue as appearing on Rate notice must be given to the Rate payers for payment of Rates in full.

For those who choose to pay by instalments, due dates for instalment payment must be set at interval of three (3) months from the due date for the payment of previous instalment.

Comments:

Due to the current Pandemic, two sets of payment dates are proposed to the Council to choose from.

They are given in the Papers Relating together with Current Rating Calendar (2019/20).

Policy Implications

Nil.

Financial Implications

The Rates recovery would have a direct impact on the cashflow position of the Council.

The proposed Rating calendar (Covid – 19 consideration) will move forward payment dates by one to two weeks in order to match payment dates for the current year, taking into consideration of the Pandemic.

There is an opportunity cost to the Council and forgone interest for a few weeks whereas delayed dates could help Rate payers meet their payment commitments more easily, enhancing recoveries.

Strategic Implications

Nil.
